ENGINEERING WORKS

## MISSION

Our mission is to offer our prospective clients qualitative, Reliable, Durable and Cost effective solutions / parts for their engineering problems and needs.

## VISION

To be a world class engineering, developing and manufacturing organization that stands out in the international standard of industries.

## Business Profile

It was founded in 1960's in Lahore Pakistan Paras Engg. Gradually maintained the quality and material, and now it became the vendor of the well known companies of Pakistan. Few of them are below:

- ◆ SUI Northern Gas Pakistan Limited
- ◆ Air Blue "Air Line"
- ◆ Millat Tractor Limited
- ◆ Al-Ghazi Tractor Limited
- ◆ New Asia Auto Industry
- ◆ Sazgar Engineering Limited
- ◆ Foton JW Auto Park (Pvt.) Ltd.

## Current Conditions

Company is working for developing more components for different O.E.M's in Auto Industry & also upgrading our technology for better developments. Our R&D is working for making more pre-cised components and suitable materials. As per requirements.

## Back Ground and Developments

In 1960's Paras developed the slow speed diesel engine, which is still installed and running in some Rural Areas of Pakistan. The company was the first in country which introduced the self start system in SLOW SPEED diesel engine by improving quality and company machinery got the contract from Sui Northern Gas Pipe Line Limited & after that in 1990's company got the first vendor ship from Raja Auto Car, and in 2000's company got also listed in vendor list of Millat Tractor Limited and Al-Gazi Tractor Limited, and also serving to Airlines.
